PERSONAL:

I would be interested in continuing to serve on the PCA Board and believe my background can contribute to provide input for the benefit of all property owners. I've been a property owner in Princeville since 1978 – resident since October 2001. Married to Sue for 39 years. We have 3 grown sons. My hobbies include golf, gardening, yoga, hiking and reading.

BACKGROUND:

Retired from the Department of Defense in October 2001. Resident of Hawaii for 41 years. My work with the Department of Defense involved developing plans, programs, and overseeing budget execution to meet current and future intelligence requirements in the Pacific region. I also served as a member of an executive committee to guide the planning and execution for the consolidation of three major intelligence activities in the Pacific.

COMMUNITY INVOLVEMENT:

Served as head coach for several youth sports teams over a 15 year time frame. Organized youth and adult groups in supporting team events. Worked with church and charity organizations in providing assistance to the needy.

GOALS:

I truly believe that Princeville is a special place with it's natural beauty and tranquil atmosphere. In the last several years there has been a large increase in development of properties in the area. Having served on the board for the past three years (2 as Treasurer and 1 as Vice President), I would like to continue to participate in the planning for adequate infrastructure, safety, and retaining the natural beauty and open spaces within the Princeville area for the benefit of residents and visitors.
