

## **CHRIS KEAO SPENCER**

Education: Masters in Business Administration  
Emphasis in Management  
Bachelor of Science in Architectural Studies  
Emphasis in Architecture

Birthplace: Honolulu, Hawaii

As father of three young children and Project Manager for a Condominium Project in Princeville, Chris Spencer brings important skills and knowledge he is eager to use and share if given the chance to serve on the Princeville Homeowners Association Board.

Chris was born and raised in Honolulu, Hawaii and brought his family to Princeville four years ago after given the opportunity to build homes and manage the Plantation at Princeville condominium project. Since his arrival, he has come to love and appreciate the beauty of Kauai and considers himself very fortunate to raise his family in the renowned community of Princeville.

His experience as a builder and father has taught him the importance of being a good neighbor, building consensus and working actively to solve problems or concerns many residents have as Princeville continues to be developed.

Before moving to Kauai, Chris worked as a Designer/Project Manager for a large Architecture Firm in Honolulu while attending school in the evenings, earning his Masters Degree in Business Administration. Upon completion of his degree, Chris moved to Salt Lake City, Utah where he worked for one of the largest Construction Management Companies in the West, specializing in quality management, safety, contract negotiations, budgets and scheduling. But Chris missed Hawaii, so when the opportunity arose to come home, he didn't hesitate and moved his family to Princeville.

Chris will work hard to complete the expansion of our Park Facilities, maintain our walking/jogging paths, support improvements to existing infrastructure and ensure all new construction, meets Princeville Associations stringent design standards. Chris is a strong proponent of open communication. He is proud to be a resident of Princeville and hopes to give back to a community he and his family consider paradise found.
